

Technical Data Sheet

Rescue Trade Transfer Sheet

Basic UDI-DI: 426072773RT-TRANSFER6S

Rescue Trade Disposable Sheet

Item: RTETFU

Description and Application

The disposable patient transfer sheet (slide sheet) minimizes friction and/or shear when transferring a patient in healthcare facilities, such as hospitals, ambulances, patient transports and nursing homes, as well as in home care. A friction-reducing transfer sheet contributes to the reduction of risk of injury to the patient associated with manual handling.

Do not use for carrying.

Material and Characteristic

- Color: blue
- 12 Handels
- Size: approx. 195x115 cm
- 1 Layer PP-nonwoven 130g/m²
- Individually hygienically and space-savingly packed in polybags

Packaging Information

• Unit:

 = 44 pcs/ctn

 = 20 ctn/Pallet

- Carton Size: approx. 60x40x40 cm
- Net Weight Ctn: approx. 16 kg
- Gross Weight Ctn: approx. 17 kg

Additional Information

MD Medical Device Class I according to EU Regulation 2017/745 MDR

- GTIN Carton: 4260727730505
- GTIN Pieces: 4260727730956

- GMDN-Number: 37163
